

Light Invasion

An exhibition of Pastel paintings by Derick Tickle

Opening reception - July 4th 2008. 7pm - 9pm.

Nelson Fine Art Center - 324 East Main St. Johnson City, TN

Light Invasion exhibition includes a number of themes such as, night scenes - reflections - architectural - landscapes - New Zealand scenes etc.

My artwork is inspired by the way light invades a surface producing texture, color, form, translucency and reflection. For reference I use photographs taken during my travels in Europe, New Zealand and the US. I use a variety of soft pastel on acid free supports and sanded papers.
